

REPORT ON ACTIVITIES OF THE FARM SECURITY ADMINISTRATION MEDICAL CARE PROGRAM THROUGH COUNTY, DISTRICT AND STATE UNITS BASED ON REPORTS OF UNITS FOR THE MONTH OF JULY, 1941.

This report differs from previous monthly reports on this medical care program in that it gives a separate section to hospital services which has previously been considered together with physicians' and surgeons' services. The section on dental services also covers dental services offered in combination with other services as well as those offered by separate dental units to which it was formerly limited.

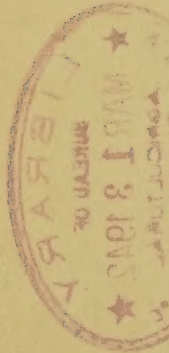

Columns have been added in the section covering physicians' and surgeons' services showing number of home and office calls per 1000 persons and columns in the section on hospital service show number of days of hospitalization per 1000 persons during the month. The average rate for physicians' and surgeons' service is 141 calls per 1000 persons and for hospitalization, 16.7 days per 1000 persons. No comparable rates among similar groups for the month of July are available. Our rates, however, indicate annual rates of 1692 calls and 200.4 days of hospitalization per 1000 persons if this July rate is maintained through the year and it is reasonable to expect that the rates during the winter months will be higher than they are during July. If allowance is made for this, these rates of 1692 calls and 200.4 days of hospitalization may be considered to compare satisfactorily with annual rates of 1812 calls and 345.2 days of hospitalization per 1000 persons found to prevail for farmers of the FSA borrower income level in 11 areas surveyed by the Department of Agriculture in connection with the Consumer Purchases Study.

This report also shows a resume of membership totals which brings together the membership of units offering different combinations of services and units offering special services, chiefly dental. The total number of units is shown to be 889 of which 120 are second units in counties in which other units are also in operation. There are 959 counties involved and 110,396 families. Maryland and Oregon are added to the list of states having medical care units in operation, bringing the total to 37 states or 39 including Michigan and Wisconsin in which only dental care units are in operation.

Region and State	No. of units	No. of counties	No. of families	No. of persons	Type of service

- (a) This is a second medical care unit in this total of counties.
- (b) The second county in a two-county unit which was counted twice since the counties which were counted twice since the or dental care units.

This report differs from previous monthly reports on this medical care program in that it gives a separate section to hospital services which has previously been considered together with physicians' and surgeons' services. The section on dental services also covers dental services offered in connection with other services as well as those offered by separate dental units to which it was formerly limited.

Columns have been added in the section covering physicians' and surgeons' services showing number of home and office calls per 1000 persons and columns in the section on hospital services show number of days of hospitalization per 1000 persons during the month. The average rate for physicians' and surgeons' service is 141 calls per 1000 persons and for hospitalization 10.7 days per 1000 persons. No comparable rates among similar groups for the month of July are available. However, the average annual rates of 1932 calls and 100.4 days of hospitalization per 1000 persons is expected to be maintained through the year and it is reasonable to expect that the rates during the months will be higher than they are during July. If allowance is made for these rates of 141 calls and 100.4 days of hospitalization may be considered to compare satisfactorily with annual rates of 141 calls and 100.4 days of hospitalization per 1000 persons found to prevail for farmers of the FSA in connection with the Consumer Purchase Study.

This report also shows a measure of membership totals which brings the membership of units offering different combinations of services and units offering dental services, strictly dental. The total number of units is shown to be 362 of which 136 are second units in counties in which other units are also in operation. There are 959 counties involved and 110,596 families. Maryland and Oregon are added to the list of states having care units in operation, bringing the total to 37 states or 49 including Michigan and Wisconsin in which only dental care units are in operation.

M46R

Report on activities of the  
Farm Security Administration medical care program  
through county, district and state units  
based on reports of units for the month of July, 1941

Resume of membership totals

<u>Types of service offered</u>	<u>No. of units</u>	<u>No. of counties</u>	<u>Membership families - persons</u>	
Physicians' and surgeons' services only or in combination with other types of service	725	911	104,356	550,010
Hospitalization only	3	3	670	3,721
Dental service only	161	176	24,280	129,689
	<u>889</u>	<u>1090</u>	<u>129,306</u>	<u>683,420</u>
*Less duplications	120	131	18,910	100,106
U. S. total		<u>959</u>	<u>110,396</u>	<u>583,314</u>

\*In counties having two separate units offering different types of service the membership of the smaller unit has been deducted on the assumption that these families also hold membership in the larger unit.

	Cap f/ 1	1	37	237	1,2,3,5			

a/ - Types of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental.

b/ - The figures shown represent the average annual membership fee as of June, 1941, for all the units in the respective states then offering the indicated combinations of services.

c/ - These figures do not apply for the entire membership shown on this line though the rates shown may be considered to be representative. The figures cover the activities of the units, operating on a fee-for-service basis, shown by entries in the columns recording charges and services under the various state headings to have submitted reports for July. The totals of all such units, counties, and members covered by reports on the various types of service for July are as follows:

Type of service	No. of units	No. of counties	Membership		Percent of total membership
			Families	Persons	
Physicians' and surgeons'	497	626	70,071	367,512	74.2
Hospital	235	302	41,092	215,520	72.8
Dental (separate)	98	106	12,516	65,008	60.6
Dental (in combination with other services)	46	112	9,638	49,049	71.3

d/ - This figure represents the amount paid rather than the approved charges for units paying for services on the basis of the number of families for which each physician, hospital, or dentist has accepted responsibility for professional care. U.S. and Regional totals also represent only the experience of these units, operating on the capitation plan, shown under the various state headings to have reported services for this month.

e/ - For reporting units operating on the fee-for-service plan. The totals of members (persons) on the basis of which these rates have been estimated include the membership of all reporting units which offer hospital services regardless of whether or not any hospitalization was included in this month's services. For units in each state reporting hospital services without reporting number of days of hospitalization, the number of days has been estimated on the basis of the average number of days of hospitalization per person hospitalized during the month for units reporting this information in the same state. For states having no units reporting number of days of hospitalization, no rate is given.

f/ - Membership totals for these units are taken from reports for months other than July.

Newly reported medical care units:

## Region I

Maryland: Kent, Queen Anne, and Caroline Counties,  
a three-county unit

## Region III

Illinois: Bureau County  
Missouri: Madison County  
Ohio: Gallia County

## Region IV

North Carolina: Jones County  
Tennessee: Monroe and Sumner Counties  
Virginia: Brunswick County  
West Virginia: Gilmer, Marion, and Lewis Counties

## Region VI

Arkansas: Randolph County and a second unit in  
Chicot County  
Louisiana: St. Tammany and Vernon Counties  
Mississippi: Amite, Calhoun, Copiah, Benton,  
Monroe, and Lafayette Counties

## Region VII

Kansas: Neosho County  
Nebraska: Dawson and Gosper Counties, a two-  
county unit

## Region VIII

Oklahoma: Payne County  
Texas: Crosby County, a single county unit, and  
Harrison and Panola Counties, a two-county  
unit

## Region X

Montana: Lincoln County added to Flathead,  
making a two-county unit

## Region XI

Idaho: Boundary County; Idaho and Lewis Counties,

Idaho (cont'd.): a two-county unit; and Madison,  
Jefferson, Teton, and Fremont Counties, a four-  
county unit

Oregon: Crook and Deschutes Counties, a two-county unit  
Washington: Skagit and Island Counties, a two-county unit

## Region XII

Colorado: Teller County added to El Paso and Elbert  
Counties, making a three-county unit

Medical care units reported discontinued:

## Region III

Indiana: Martin and Daviess Counties, a two-county unit

## Region IV

North Carolina: Cleveland, Hertford, Jackson, Sampson,  
and Transylvania Counties

Tennessee: Jackson County

UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM SECURITY ADMINISTRATION  
Washington, D. C.

MAR 16 1942

REPORT ON ACTIVITIES OF THE FARM SECURITY ADMINISTRATION  
MEDICAL CARE PROGRAM THROUGH COUNTY, DISTRICT, AND STATE  
UNITS DURING THE MONTH OF MARCH FOR THE MONTH OF AUGUST 1941.

This report for August 1941 shows an addition during the month of 20 units in 22 counties offering physicians' and associated services, three units in three counties offering dental services, and one unit offering drug service only. One unit offering physicians' and associated services was discontinued. Eleven of the 22 new units offering physicians' services, all the new dental units, and the new drug unit were organized in Texas. The remaining new units were organized in eight different regions. The net increase in caseload during the month was 2,369 families consisting of 11,733 persons.

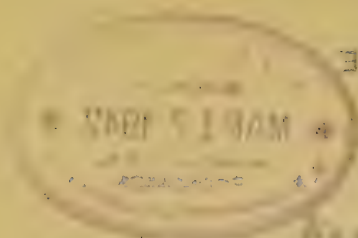

The percentage payment on approved charges for physicians' and surgeons' services was 54.8 percent. This is low as compared with the rates for other months but compares favorably with the 50.4 percent payment for August 1940. The percentage payment on charges for hospital services was 72.5 percent and dental services, 82.3 percent in separate dental units, and 50.3 percent in units offering dental service in combination with other services.

UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM SECURITY ADMINISTRATION

MAR 15 1945

REPORT ON ACTIVITIES OF THE FARM SECURITY ADMINISTRATION  
DURING THE FISCAL YEAR ENDING JUNE 30, 1945  
UNITED STATES DEPARTMENT OF AGRICULTURE

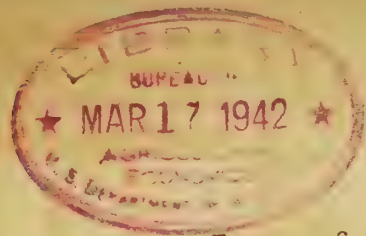

This report for the year 1945 shows an additional growth of 10 per cent in the number of farm families receiving benefits, from 1,000,000 in 1944 to 1,100,000 in 1945. The total amount of benefits paid was \$1,100,000,000, an increase of 10 per cent over the \$1,000,000,000 paid in 1944. The total number of farm families receiving benefits was 1,100,000, an increase of 10 per cent over the 1,000,000 in 1944. The total amount of benefits paid was \$1,100,000,000, an increase of 10 per cent over the \$1,000,000,000 paid in 1944.

The Government's program for the year 1945 was to provide benefits to farm families in the amount of \$1,100,000,000. This was done by providing benefits to farm families in the amount of \$1,100,000,000. The total number of farm families receiving benefits was 1,100,000, an increase of 10 per cent over the 1,000,000 in 1944. The total amount of benefits paid was \$1,100,000,000, an increase of 10 per cent over the \$1,000,000,000 paid in 1944.

	Cap f/ 1	1	37	237				

a/ - Types of service offered: 1 - Physicians'; 2 - Surgeons'; 3 - Hospital; 4 - Drug; 5 - Dental.

b/ - Figures shown represent the average annual membership fee as of June, 1941, for all the units in the respective states then offering the indicated services.

c/ - These figures do not apply for the entire membership shown on this line though the rates shown may be considered to be representative. The figures cover the activities of the units operating on a fee-for-service basis shown by entries in the columns recording charges and services under the various state headings to have submitted reports for August. The total of all such units, counties, and members covered by reports on the various types of service for August are as follows:

Type of service	No. of units	No. of counties	Membership		Percent of total membership
			Families	Persons	
Physicians' and Surgeons'	512	852	71,420	418,645	67.7
Hospital	244	328	39,727	209,049	67.9
Dental (separate units)	111	118	16,215	86,206	76.2
Dental (combined with other types of service)	54	97	7,572	38,723	53.1

d/ - This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which each physician, hospital, or dentist has accepted responsibility for professional care. U.S. and Regional totals also represent only the experience of these units operating on the capitation plan, shown under the various state headings to have reported services for this month.

e/ - For reporting units operating on the fee-for-service plan. The totals of members (persons) on the basis of which these rates have been estimated include the membership of all reporting units which offer hospital service regardless of whether or not any hospital services were rendered this month. For units in each state reporting hospital services without reporting the number of days hospitalized, the number of days has been estimated on the basis of the average days per person hospitalized during the month for units reporting this information in the same state. For states having no units reporting hospital days, no rate is given.

f/ - Membership totals for these units are taken from reports for months other than August.

g/ - These units pay not more than fifty percent at the end of each month or quarter, delaying further payments until the end of the year. Therefore, they are not taken into account in estimating percent paid.

Newly reported medical care units:

## Region I

New York: St. Lawrence County

## Region III

Missouri: Caldwell and Livingston Counties, a  
two-county unit

Ohio: Seneca County

## Region IV

Tennessee: Henry County

## Region V

Florida: Alachua County

Georgia: Gilmer County

## Region VI

Mississippi: Lawrence County

## Region VII

Kansas: a second unit in Pratt County

## Region VIII

Texas: Burleson, Garza, Rusk, Walker, Wood, Cass,  
Hardeman, Polk, Shelby and Delta Counties  
and Tyler and Hardin Counties, a two-county  
unit

## Region X

Montana: Judith Basin County and parts of Chouteau,  
Hill and Pondera Counties added to the  
Cascade-Teton unit, making a six-county unit

## Region XI

Washington: Klictitat County added to Yakima County  
unitNewly reported dental care units:

## Region VIII

Texas: Jasper, Madison, and Erath Counties

Newly reported drug service unit:

## Region VIII

Texas: Limestone County

Medical care unit reported discontinued:

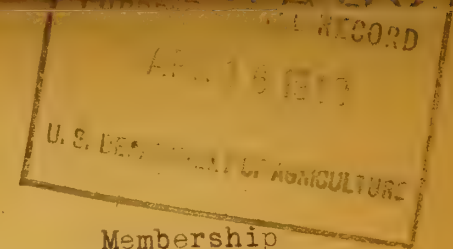

## Region X

Wyoming: Weston County

	<u>Units</u>	<u>Counties</u>
Total newly reported (medical)	20	22

a/ - Types of service offered: 1 - Physicians'; 2 - Surgeons'; 3 - Hospital; 4 - Drugs; 5 - Dental.

b/ - Figures shown represent the average annual membership fee as of June, 1941 for all units in the respective states then offering the indicated services.

c/ - These figures do not apply for the entire membership shown on this line, though the rates shown may be considered representative. The figures cover activities of units operating on a fee-for-service basis, recording, charges and services, under the various state headings as reported for September.

The total of all such units, counties, and members for the various types of service this month are as follows:

Type of service	No. of units	No. of counties	Membership		Percent of total membership
			Families	Persons	
Physicians' and Surgeons'	487	618	64,339	350,340	67
Hospital	215	268	35,296	184,717	60
Dental (separate units)	100	109	16,026	84,976	65
Dental (combined with other types of service)	31	53	3,978	19,440	27

d/ - This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which each physician, hospital, or dentist has accepted responsibility for professional care. U. S. and Regional totals also represent only the experience of these units operating on the capitation plan, shown under the various state headings to have reported services this month.

e/ - For all reporting units operating on a fee-for-service basis in each state. The totals of members (persons) on which these rates have been estimated, include the membership of all reporting units which offer hospital service, regardless of whether or not any hospital service was rendered this month. For units in each state reporting hospital services without reporting the number of days hospitalized, the days have been estimated on the basis of the average days per person hospitalized during the month for units reporting this information in the same state. For states having no units reporting hospital days no rate is given.

f/ - These units pay not more than 50 percent at the end of each month or quarter, delaying further payments until the end of the year. Therefore, they are not taken into account in estimating percent paid.

g/ - Membership totals for these units are taken from reports for months other than September. No membership was reported for Mitchell County, Kansas, in Region VII and Mason and Mitchell Counties, Texas, in Region VIII.
